WELCOME TO LUHAČOVICE

The city of Luhačovice lies in the southeastern part of the Czech Republic near the border with Slovakia.

Luhačovice boasts more than 350 years of spa tradition. The first springs were recorded in the second half of the 17th century.

Despite its long history, it is a modern spa that uses healing mineral water, its natural climatic conditions, high-quality medical care and the latest rehabilitation methods.

The tradition of the spa treatment, uniqueness of the environment and exceptional architecture have set Luhačovice among the well-known and sought-after spa sites. Politicians, artists and famous scientists or doctors meet here.

Czech Republic has submitted a proposal to include the Luhačovice spa area on the UNESCO World Heritage List.

THE BEAUTIFUL SPA

The picturesque atmosphere of Luhačovice spa is created by various architectural styles. The most important buildings – Jurkovičův dům and spa colonnade are located in the heart of the spa. Both have been declared cultural monuments of the Czech Republic.

The spa colonnade with its adjacent hall housing the Vincentka spring underwent extensive revitalization in 2018 – 2019.

The unique image of the spa is completed by its connection with nature, carefully maintained parks and fountains. The exceptional location and atmosphere of this place, distinguishes Luhačovice from many other spas.

Luhačovice holds an EDEN award (European Destination of Excellence), a competition for the most beautiful destination of the Czech Republic, announced by the European Commission.

AFTER ONCOLOGICAL TREATMENT

Spa treatment is carried out under the supervision
of a physician and follows an individual treatment
program. Based on the medical examination, the spa
physician prescribes the appropriate procedures
using Vincentka and other unique natural healing
waters and further rehabilitation methods.

The basis of the spa treatment of the respiratory
system are inhalations, baths in natural mineral
water and benefits of drinking the mineral water.

The most famous natural mineral water of Luhačovice
is Vincentka. It is the basic inhalation medium
in most inhalation therapies applied in the Czech
Republic. It is the only spring that is bottled and
generally available. However, its healing effect
directly from the source is irreplaceable.

The spa treatment also uses nine other mineral
springs of similar composition. Their temperature
is between 10 and 14 °C.

TREATMENT FOR CHILDREN

A NEW GENERATION OF BALNEOTHERAPY

In Luhačovice, we treat children with respiratory diseases from 1,5 years of age. Children stay with their parents in one of our hotels.

The procedures take place at the Miramonti children's sanatorium, where the balneotherapy area has been built with respect to our youngest patients. Modern facilities with carbonic baths are stylized into a water world.

Our new generation Balneotherapy facilities have delighted not only the children but also European experts.

Luhačovice spa has been awarded the prestigious certificate of the European Association of Medical Spas Innovation Award of 2016 for the best European medical spa innovation, awarded in the French spa city of Vichy.

In doing so, it became the first, and the only company in the Czech Republic so far to win the prestigious award.

For the best
European innovation

LUHAČOVICE SURROUNDINGS

Do you like exploring interesting places?
Let yourself be enticed by monuments, beauty
of nature, local folklore, wine, taste the local cuisine
and experience traditional Moravian hospitality.

The nearby town of Zlín is an important industrial,
commercial and cultural center of East Moravia
and a seat of regional government. Visit the
charming Baroque chateau in Buchlovice or
the most important Christian pilgrimage site
in Moravia - Velehrad. Kroměříž Gardens and
the Archbishop's Palace are an UNESCO World
Heritage Site.

Rožnov pod Radhoštěm has the oldest, largest
and most visited open-air museum in Central
Europe. The second most popular zoo in
the Czech Republic is near Zlín, as is
the romantic chateau Lešná.

If you do not wish to travel by yourself, take
advantage of our information center at the spa
colonnade. We organize trips around the area
with English speaking guides.
